Driven, creative, analytical Full Stack Developer with a focus in backend languages and a passion for learning and problem-solving. Utilizes background in digital marketing and project management to maintain a holistic view of the entire business and produce code that keeps the user in mind. After dedicating time to teaching adults about Web Development, I am seeking a position that will enable me to work with a growth-minded team to use my enthusiasm, communication, and collaboration to build projects and reach goals.

EDUCATION

NASHVILLE SOFTWARE SCHOOL

Full Stack Web Development Bootcamp with a focus in C# and .NET
November 2018

LIPSCOMB UNIVERSITY

B.B.A. in Digital Marketing and International Business
Graduated: May 2016

Trustee Scholarship

One of five to receive the prestigious full-tuition scholarship to Lipscomb University.

PROJECTS

Majority Wins:

<https://github.com/leahhoefling/GroupTravelApp>

A Group Travel Itinerary Planning app built with React, JavaScript, HTML, and CSS. It helps groups decide which activities or landmarks they want to do or see while traveling. After users submit suggestions and vote, the app provides a suggested itinerary.

Drip:

<https://github.com/leahhoefling/DripBackendCapstone>

In 2018, Cape Town had 420 days until its water reserves would reach 10%, therefore residents were limited to 70 liters pp/day. Drip is an application that helps users track their limited water usage and challenges users to conserve water. Drip was built with C#/.NET using Entity and Identity frameworks

SKILLS

- Experience with Frameworks: Django REST, Django, ASP.NET Core, and Entity
- Skilled in SQL
- Skilled in Debugging my own and other's code
- Experience with migrations and Integration Tests
- Knowledgeable of Agile Methodology
- Experienced in Git/ GitHub Workflow and Projects
- Familiar with CSS frameworks: Bootstrap and Bulma
- Proficient in HTML and CSS
- Knowledgeable of React Framework, React Hooks and Context API, as well as jQuery Library

EXPERIENCE

NASHVILLE SOFTWARE SCHOOL | Nashville, TN

Junior Instructor | December 2018 – February 2020

- 6 Months Teaching: JavaScript, React, introductory software development concepts; 6 Months Teaching: C#, .Net Core, and SQL Server; 3 Months Teaching: Python, Django, Django REST Framework, and SQLite
- Developed a new frontend curriculum that provided more context in the form of narrative to teach beginning students the fundamentals of HTML, CSS, & JavaScript; students grasped concepts of loops, conditionals, and modular code at faster paces than the previous curriculum
- Taught a variety of lessons on topics: SQL, fundamentals of JavaScript and C#, ERD's, Github, Debugging, basics of the React Framework, and backend data structures
- Acted as a product owner/scrum master by teaching Agile Methodologies, running sprint planning ceremonies, daily standups, clarifying product requirements, and performing code reviews/retros at the end of each sprint
- Recognized for clear communication, relatable and diplomatic leadership skills in the classroom and on the Instructional Team, and dedication to mentoring students

Junior Full Stack Developer | May 2018 – November 2018

Rigorous full-time software development bootcamp that concentrates on full stack development essentials and problem solving. The final half of the program is executed in a simulated company environment with Scrum methodology.

- Hands-on application of OOP fundamentals through group and individual projects reflecting real-world business problems
- Learned JavaScript and leveraged DRY, modular code and reusable components to build browser-based, single page applications
- Created and modified database design/content using SQL, ASP.NET Core, and ORM tooling
- Created RESTful APIs using ADO.NET and leveraged Entity and Identity for creating MVC applications

INFLAMMO, LLC | Brand Manager

Nashville, TN | March 2017 – May 2018

- Contributed to marketing, sales, project management, client happiness, branding, and internal engagement; successfully balanced a variety of projects simultaneously.
- Served as the Project Manager through a partnership with a web design agency to incorporate Inflammo's new branding, an inbound marketing strategy, and new UI

LYFT | Social Media Customer Experience Associate

Nashville, TN | June 2016 – March 2017

- Represented Lyft's voice on social media while building trustworthy relationships and creating a positive experience
- Organized Product Feedback from 338K+ followers and reported bugs through JIRA
- Worked with Engineering on the Lyft + Facebook Messenger AI integration to debug issues and ensure accuracy of bot responses
